

Showtime with Scratch

Create a scratch project that meets the following requirements:

- Choose any avatar that represents **you**;
- Make your avatar respond to the following **questions**;
- Please describe your ideas and have your avatar speak for at least **1** minute. Make sure that this minute of speaking is informative and interesting. You might want to write down some notes before you speak.

Please explain your answer to the following questions:

What are you most excited about for this multimedia science fiction project?

- Consider some of the following elements of the project in your answer:
 - The role (scientist, writer, or designer) or multiple roles you want to try out
 - The technologies you want to work with
 - The new things you will learn
 - The science fiction you will write
 - Or any other element of the project you are excited about!
